

Coverings' Transformation

Si-COAT[®]
a CSL Innovation
TECHNOLOGY THAT STICKS™

Dear Readers,

As CSL's First Quarter drew to a close, the opportunity was taken to initiate a transformation of *Coverings*. The Q1-2006 issue will not be published as the new look and restructured focus are integrated.

Please stay tuned for the revised *Coverings* at the end of Q2-2006, to be distributed in August.

The Coverings Editorial Team
